

Mini Test #3: Chemistry

Date of Mini Test: Wednesday, Nov 30

To prepare for the Mini Test you should review and know the following topics:

1. Lab Safety including lab equipment and safety equipment along with WHMIS symbols
2. Chemical and Physical Properties
3. Chemical and Physical Changes
4. Density and Density Calculations
5. Particle Theory of Matter – Particles, Pure Substances, Mixtures, Alloys

Read through your notes and your textbook, along with the labs that we have done so far to ensure that you are well prepared.
